

# Transport

## Coloring Book

# car

Cars are a type of land transport. They move people from one place to another.

# plane

Planes are air transport. Planes move people and cargo long distances and across oceans.

# train

Trains are land transport. They move people and goods across long distances on railroad tracks.

# rocket

Rockets are space transport. They take people into space to explore new and unfamiliar places and planets.

# submarine

Submarines are underwater vehicles. They explore deep parts of the ocean that are hard to access otherwise.

# bus

Buses are land transport. This is a double-decker bus. Buses drive on the road and transport up to 60 people at a time.

# forklift

Forklifts are a heavy-lifting vehicle operated by people who need to move large and heavy items from one place to another.

# buggy

Buggies are small vehicles that move between 2-6 people at a time, often around sporting and recreational venues.

# pram

Prams and strollers are method of transport used for babies and young children.

# motorbike

Motorbikes are a two-wheel land transport vehicle that have a capacity for two passengers.

# raft

Rafts are water transport. They are often inflated with air and used as transport on rivers.

# helicopter

Helicopters are small air vehicles that have propeller blades at the top and carry up to 12 passengers.

# industrial truck

Industrial trucks transport goods from one place to another, often over large distances.

# bicycle

Bicycles are single passenger vehicles that are powered by the rider.

# moped

A moped is a small land vehicle that is similar to a motorbike and only has one passenger.

# skateboard

Skateboards are two-wheeled, human-powered vehicles primarily used for recreational purposes.

# hot air balloon

Hot air balloons are giant balloons that lift off the ground using gas. People are transported in large baskets.

# yacht

Yachts are a method of water transport. They can be powered electrically or by wind. They are used for racing and cruising on the water.

# dump truck

A dump truck is also called a 'tipper' and moves earth or materials around on land. The tray can tilt and tip the materials onto the desired location.

# crane

Cranes are machines fixed to a vehicle that help to lift and move large and heavy materials during construction.

# kayak
